

## Making a Ten

<p align="center"><b>Overarching Student Learning Goals</b></p> <p align="center">In this unit, your child will work to build an understanding of the following:</p>	<p align="center"><b>Resources/Tasks to support your child at home.</b></p>
<p><b>Use a variety of strategies to represent composing a ten.</b> Students compose a ten using a tens frame, number bonds and equations.</p> <div style="display: flex; justify-content: space-around; align-items: flex-start;"> <div style="text-align: center;"> <p><b>Tens Frame</b></p>  <p><b><math>2+8=10</math></b></p> </div> <div style="text-align: center;"> <p><b>Part-Part-Whole</b></p>  <p><b><math>3 + 7 = 10</math></b></p> </div> <div style="text-align: center;"> <p><b>Number Bond</b></p>  <p><b><math>6 + 4 = 10</math></b></p> </div> </div>	<ul style="list-style-type: none"> <li>Encourage your child to use different objects to make ten. Have your child use two different items (two different colors of cereal/candy, two different coins) to make ten. Then have them record the equation (<math>2+8=10</math>).</li> <li>Khan Academy Tutorial Video: Getting to 10 by Filling Boxes <a href="https://goo.gl/ZXH9va">https://goo.gl/ZXH9va</a></li> <li>The Math Learning Center Number Frames: <a href="https://goo.gl/Lz4Kqc">https://goo.gl/Lz4Kqc</a></li> </ul>
<p><b>Find the missing addend to make ten, when given one number and represent with an equation.</b> Students represent missing addends to make ten using tens frames, part-part-whole boxes and number bonds.</p> <div style="display: flex; justify-content: space-around; align-items: flex-start;"> <div style="text-align: center;"> <p><b>Tens Frame</b></p>  </div> <div style="text-align: center;"> <p><b>Part-Part-Whole</b></p>  </div> <div style="text-align: center;"> <p><b>Number Bond</b></p>  </div> </div> <p align="center"><b>Equation: <math>? + 4 = 10</math></b></p>	<ul style="list-style-type: none"> <li>Give your child an equation like: <math>?+4=10</math> and ask, “What do you need to make ten?” Have them model counting on to make ten using tools, a part-part-whole box or number bond.</li> <li>Anytime you have an amount less than 10 ask, “What would we need to make ten?”</li> <li>Khan Academy Practice: Grids and Number Bonds <a href="https://goo.gl/dja6xq">https://goo.gl/dja6xq</a></li> </ul>
